

15 & 18W CCT LED Decorative Fittings.

Perfect for both domestic and commercial spaces, our Dual Wattage LED Decorative Fittings are used to illuminate areas such as offices, corridors, bathrooms and stairwells.

The light fitting has a polycarbonate base and a high light output diffuser, which produces an even amount of light without any blackspot areas. Our high lumen output chips are kept from view for an LED light that's both practical and stylish.

The Dual Wattage Decorative Fittings are a direct replacement for the 28W 2D Light Fitting and are available as standard, microwave, emergency or emergency microwave for maximum efficiency and safety – enabling our customers to choose the ideal light fitting for their space, with our 3000k, 4000k & 6000k colour temperatures.
