Horus Emergency Exit Sign

Our ultra-slim 2.8W modern LED exit sign brings the efficiency and flexibility of LED to the vital sector of emergency lighting and has a neat picture frame appearance when compared to conventional bulky exit signs.

With its 2.8 Watt LED light source, it provides a daylight 6,500k illumination across the legend with 5 individual LEDs providing downlight.

This item is supplied with all legend options (down, left and right) and this self-illuminating exit sign can be clearly seen in emergency situations and at 24m.
