

## Ponus 3W LED Twin Spot Non Maintained Emergency Light

Our energy-efficient LED twin spot emergency wall light is a direct replacement and alternative to traditional halogen style emergency twin spot bulkheads.

This non-maintained unit will only illuminate in the event of a mains power failure and will remain illuminated for at least 3 hours with its 405 lumens, it will certainly guide you out of any dark areas.

It's constructed from polycarbonate and has an IP20 rating.
